EU-MILL VI Meeting in Djerba (Tunisia)

The VI meeting of the EU-MILL (Euro-Mediterranean Integration through Lifelong Learning) took place in Djerba, Tunisia, on 27-29 April 2015, counting with an attendance of 32 delegates.

Under the joint organization of the University of Gabes (host institution) and the University of Seville (EU-MILL project Coordinator) the meeting serve to disseminate the intermediate results of the project, organize the remaining activities and to have an important contact with south Mediterranean (SM) partners ministries.

Some of the activities tackled on this gathering were the university-enterprise meetings and conventions, development of national and regional qualification framework, a valid system of quality assurance for LLL, training for trainers or the development of pilot courses.

Among the partner universities and Maghrebian office of the Francophone University Association, this meeting counted with the presence of four representatives from the education and research ministries of Tunisia, Lebanon and Morocco what allowed us to inform directly about the project progresses and listen to the local situation and projects in process on Lifelong learning.

Roundtable with representatives of the Ministries in Djerba (Tunisia)

One of the most relevant success of the Djerba meeting was being able to gather four representatives from the Education and Research ministries in Morocco, Tunisia and Lebanon.

The presence of Ministries representatives favored us to have bilateral meetings between them and the coordination team to be able to know better the singularities of every partner country.

Several bilateral meetings took place during the seminar finalizing with a roundtable where we could discuss the project achievements and the LLL plans on the SM neighbour countries.

The EU-Mill project needs the cooperation of the ministries to fulfil the structural changings proposed. The climate of understanding established with the representatives in Djerba and the further contacts between representatives and coordination team after the meeting, foresee a new phase of mutual collaboration.

University-Enterprise Meeting in Tangier

One of the most important objectives of the EU-MILL project is promoting the exchanges between university and enterprise with aim establishing synergies between the enterprises' needs and the Lifelong Learning offer, and encouraging legal changes promoting positive exchange perspective.

Within this context a University-enterprise have taken place in Tangier under the coordination of University Abdelmalek Essaadi (Tangier) and University Mohammed V (Rabat). This conference is the third one of this type celebrated on the framework of EU-MILL project of the ones in Tunisia in the cities of Gabes and Sousse.

This meeting counted among others with the representatives of the Ministry of Education and Training, such as General Director Mr. Abdelillah Afifi; the President of universities Abdelmalek Essaadi and Mohammed V, Mr. Ameziane Houdaifa and Saaid Amzazi; the president of the Tangier Chamber of Commerce for the Industrial sector, Mr. Omar Moro, as well as representatives from the socioeconomic sector of the highly productive Tangier area.

From the EU-MILL project there were present members from both Moroccan partner universities and from the University of Seville, Mr. Mariano Aguayo (EU-MILL coordination team) and Mr. Enrique Lara, Director of the International Center.

Summarizing, the seminar celebrated in Tangier succeed in bringing together representatives from the universities, executives from the socio-economic field and political decision-makers. We look forward to see the progress of this relation in the following moths.
